1.0 Background

The [Laar Humanitarian and Development Programme \(LHDP\)](#), the [HELP Foundation](#), and the [Doaba Foundation](#) jointly established the [Indus Consortium for Humanitarian, Environmental, and Development Initiatives](#) (IC) in 2008 as a platform for organisations to coordinate humanitarian response, improve surge capacity and work together among the three founding organisations and other like-minded organisations mainly in humanitarian and climate resilience sectors.

Doaba Foundation: Doaba Foundation has extensive experience in implementing projects of varying scales across Punjab. Since 2003, it has successfully delivered over 145 projects of varying sizes, with a total financial portfolio of approximately PKR 4,500 million.

HELP Foundation: HELP Foundation focuses on humanitarian response, climate resilience, and WASH sectors in Punjab. Over the past decade, HELP Foundation has implemented 67 projects valued at approximately PKR 2,410.51 million.

Laar Humanitarian & Development Programme (LHDP):

LHDP primarily operates in Sindh. The organisation's focus is on humanitarian programme (preparedness, response, anticipatory actions, recovery and rehabilitation phases), climate resilience, and WASH (both in humanitarian and development contexts). With extensive experience, LHDP has completed 76 projects with a total budget of approximately PKR 1,720 million.

The platform approach, as manifested in the IC, brought together the three founding organisations to build reliable surge capacity in the event of mega humanitarian crises and synergised their effectiveness. The three founding organisations finally registered IC as a legal entity under the Securities and Exchange Commission of Pakistan (SECP) under Section 42 of the Companies Ordinance.

The IC, as a humanitarian platform of three founding organisations, is currently responding to the 2025 floods in Punjab Province and is engaged in preparatory work in Sindh Province.

2.0 Key Points of the Previous Report

Floods have affected 5.8 million people across Pakistan, with 992 deaths and widespread losses to homes, crops, and infrastructure. Indus Consortium members are actively responding: **Doaba Foundation** is providing food, hygiene kits, safe water to 31,000 people/day and WASH support; **HELP Foundation** is running medical camps, evacuations, and cooked food support in Rajanpur and South Punjab; and **LHDP** has activated its ERU, conducted rapid assessments in 7 Sindh districts, and mobilized stockpiles with thousands displaced to protection bunds. Urgent needs include food, safe water, hygiene kits, shelter, livestock fodder, dewatering pumps, logistics, and inclusive compensation mechanisms, with special priority for women, minorities, and vulnerable groups.

3.0 Situational Update

3.1 General Situational Update

According to the National Disaster Management Authority (NDMA) Monsoon Situation Report No. 86¹, the floods in Pakistan between June 26 and September 19, 2025, have caused 1,006 deaths, including 568 men, 163 women, and 275 children. A further 1,063 people were injured (450 men, 292 women, and 321 children). The disaster has damaged or destroyed 12,569 households, washed away 1,981.37 kilometres of roads, destroyed 239 bridges, and resulted in the loss of 6,509 livestock. According to the Met office Monsoon 2025 has been retrieved from most of the country. No significant weather is expected in most parts of the country in the coming days². Hot and dry weather is expected in flood affected areas of Punjab and Sindh during the next week.

Refer to Weekly Weather Outlook dated 23 September, Ministry of Defense (Defense Division) Pakistan MET Department, Flood Forecasting Division, weekly significant weather outlook for river catchments (24–30 September 2025) indicates no significant rainfall is expected. Regarding the flood situation in major rivers, the report highlights that the Indus River at Kotri is likely to remain at a medium flood level until the end of this month.

Since late June, 6.9 million people have been affected, including 4.7m people in Punjab Province, 1.6m people in Khyber Pakhtunkhwa (KP) Province, 356,000 people in Gilgit-Baltistan province and 185,000 people in Sindh Province. In Punjab, as waters recede, some of the 2.7 million displaced are returning to heavily damaged homes and livelihoods. Despite some returns, Punjab remains the center of the emergency, with large areas still submerged in Multan and Muzaffargarh.³

3.2 Our Situational Update

Doaba Foundation (DF) is coordinating and liaising through participation in District Disaster Management Committee (DDMC) meetings to align flood preparedness measures. Field Assessments: DF teams visited vulnerable sites, including Chamb Mor, to review embankments, settlements, and potential evacuation routes. Rescue 1122 Engagement: A dedicated meeting with Rescue 1122 Lodhran was held to plan joint evacuation support and safe-boat access in the event of riverine flooding. Community Preparedness: Through the Doaba Women Welfare Forum (DWWF), awareness sessions were conducted to reactivate flood emergency preparedness, ensuring women leaders and community focal persons are ready for mobilisation. Emergency Communication: The flood emergency control room contact number was updated and widely shared with communities for direct access. Resource Review: A debriefing on DF's contingency stock was carried out to assess hygiene kits, water purification supplies, PPE, and logistics resources. Planned Action: Procurement and pre-positioning of chlorine tablets, jerrycans, and family hygiene kits in high-risk union councils (Adam Wahan, Qureshiwala, Jhoke Janan).

² Press release (19 September at 14.30 PST)

³ UN OCHA Monsoon floods 2025, Flash update # 10

HELP Foundation and its members have been actively engaged in the flood emergency response in District Rajanpur, Punjab, while also extending coordination support in other provinces. In Rajanpur, medical camps have been established, benefiting 1,619 patients with treatment and medicines, and treating an average of 200 patients daily, primarily for diarrhea, fever, and skin diseases.

Initial WASH interventions have also been carried out, including the chlorination of water sources and hygiene awareness sessions in relief camps. Furthermore, relief camps were set up to provide immediate food and medical support. Partnerships with the district administration and local volunteers have strengthened coordination and enhanced the overall response efforts.

Medical camp by HELP Foundation

Medical camp by HELP Foundation

LHDP has established an Emergency Response Unit at the Head Office to oversee coordination and response efforts. Dewatering operations have been initiated in Union Council Tarai of Taluka Shaheed Fazil Rahoo, while an Initial Rapid Survey Report covering six districts of Sindh has been launched and shared with stakeholders. To strengthen field monitoring, focal persons have been onboarded in seven districts to regularly share updates with the Head Office ER Unit in Badin through a dedicated WhatsApp group. Coordination mechanisms have been developed with PDMA Sindh and district DDMA, and stockpiles of essential equipment including three motorboats, eleven dewatering pumps, twenty megaphones, and water testing kits are being maintained. LHDP is also engaging with community organizations and DDMA to establish early warning systems with the active support of affected communities. Daily situation reports are being shared with national and international stakeholders to ensure timely information flow and coordinated action. Furthermore, the LHDP conducted the “**Strengthening Anticipation: Pre-Flood Rapid Assessment (2025)**” in Sindh to identify risks for riverine communities across six districts: Ghotki, Kashmore, Larkana, Qambar Shahdadkot, Sujawal, and Sukkur. The assessment covered 375 villages, 43,614 households, and 261,684 individuals. Findings and recommendations were launched in a webinar with 52 stakeholders, including NGOs, INGOs, journalists, consortia, and community representatives, who provided valuable feedback. The full report is available here: <https://tinyurl.com/jd7h3d2k>.

The district-wise details are the following:

1. Gujranwala

In Gujranwala, Doaba Foundation is responding to recent floods through preparedness and early action with support from the Start Network (UK). Assessments in Union Council Mansoor Wali identified urgent needs for food, safe water, sanitation, hygiene kits, temporary shelter, livestock fodder, and de-watering of public facilities. In collaboration with the Social Welfare Department and District Government, de-watering operations were completed at Government High School Khanki and the BHU on 6 September, restoring access to education and health services.

Under READY Pakistan and the START DRF mechanism, relief reached 300 beneficiaries, including the distribution of **325 hygiene & MHM kits** and **325 food ration packages**, prioritizing female-headed households, persons with disabilities, and destitute families. Additional surveys in UC Dilawar highlighted further food and hygiene needs, while six Distribution & Crowd-Controlling Committees were established to ensure transparent relief delivery.

Despite strong coordination with district officials, challenges remain due to gaps in household-level data, limited funding, and unmet WASH and food security needs. Urgent financial support is required to expand assistance to unreached villages, where current resources remain insufficient against the scale of need.

Key Highlights of the Activities in district Gujranwala:

With the Start Network’s support, the below activities have been carried out.

Activity	Description of details
Provision of Ration pack	325 ration packs were distributed to flood-affected families, providing essential food and household supplies during the emergency

Provision of Hygiene and MHM Kits	325 hygiene and Menstrual Health Management (MHM) kits were distributed to flood-affected communities, promoting safe practices, safeguarding women's and girls' dignity, and reducing health risks during the crisis.
Dewatering of stagnant water	Dewatering was completed at schools, health facilities, and public buildings in Baloki, enabling timely restoration of essential services.

2. Muzaffargarh

Muzaffargarh remains under a high flood alert as the Chenab River continues to swell, inundating villages in Jatoi, Alipur, and Khairpur. Doaba Foundation has been tasked with providing cooked meals at the Jhalrain Shumali Boys High School camp and supporting WASH services across 22 district camps. To date, **44 portable latrines** have been installed in key sites, and **safe water is being supplied daily to 31,000 people** through bowzers. Nutrition-sensitive support has reached **65 vulnerable beneficiaries** (PLWs, elderly, and PWDs), while psycho-social activities for children have been introduced at Jhalrain camp, inaugurated by Social Welfare leadership. Doaba is actively coordinating with district authorities, UNOCHA, and NHN partners to strengthen assessments and service delivery. However, challenges persist, including bund breaches, unmet WASH and food needs, high displacement, and limited resources. Funding gaps are restricting the expansion of hygiene kits, food hampers, and water services, while prolonged operations continue to strain staff and logistics.

Doaba Foundation, in close coordination with the District Government, Social Welfare Department, and the NHN network, has played an active role in the ongoing flood response. In collaboration with partner NGOs, the following activities have been implemented:

Focused area	Details
Relief Camps	22 flood relief camps have been declared and notified.
DC-NGO Coordination	NGOs have been assigned specific camps for cooked food distribution
Doaba Foundation Role	Jhalrain Shumali Boys High School designated as a cooked food distribution camp; WASH facilities supported across 22 flood relief camps.
Food Provisions and other support by NGOs	The district government has made it mandatory for all NGOs to provide food and other requested support. Organizations unwilling to comply risk cancellation of their NOC by the authorities.
Portable latrine	Doaba Foundation to install portable latrines in all 22 camps; first phase includes 10 units to be established tomorrow in Jawana Bangla.
NHN Coordination for anticipatory action project activities	Hygiene kits, food hampers, and water distribution will be carried out through the NHN platform in collaboration with Sajh, SYCOP, and Sukh Foundation.
Inception Meeting	Six NGOs participated in the meeting convened by the Deputy Director of Social Welfare. It was agreed that all organizations will contribute voluntarily to the flood response, while Doaba Foundation will provide travel allowance support for partner organizations.
Water Provisions	Doaba Foundation will deploy two water bowzers: one at Comprehensive High School and Khurshid Abad School (city side), and one at the downstream side.
Installation of Portable emergency Toilets in Camps	A total of 44 emergency toilets were installed: 10 in Jawana Bangla and Langar Saray camps serving 4,714 users, 4 in flood relief camps, and 30 in Tehsil Alipur, District Muzaffargarh.
Provision of Safe Drinking Water	Safe and clean drinking water has been ensured for all individuals, including women, children, persons with disabilities, and transgender persons. In District Muzaffargarh, approved water sources designated by the district government are providing safe drinking water in relief camps at Jhalrain Shumali, Langar Sarai, Jawana Bangla, and Government Comprehensive School, benefiting approximately 31,000 people daily. To further strengthen this response, Doaba Foundation has also designated two additional camps Manjan Sultan and Taraf Flood Relief Camps on the recommendation of the Deputy Commissioner, Muzaffargarh.

Focused area	Details
Psychosocial Support in camps for the displaced children	In Flood Relief Camp Jhalarin, psychosocial support activities for displaced children were inaugurated by the Divisional Director and Director of Social Welfare & Bait-ul-Maal, Punjab. The initiative includes swings, cricket, and ludo games to promote children's emotional well-being and social adjustment during displacement.
Provision of Nutrition food Hamper relief camps.	Doaba Foundation distributed nutritious food hampers to 35 vulnerable individuals (PLWs, elderly, PWDs, adolescent girls) in flood relief camps at UC Jhalarin Shumali, District Muzaffargarh. This initiative represents an innovative, locally driven solution, developed with the technical expertise of a partner university. By leveraging local resources and capacities, the intervention aligns with the global agenda on humanitarian innovation and aid localization.
Provision of Hygiene and Menstrual Hygiene Management (MHM) Kits.	A total of 325 Hygiene and Menstrual Health Management (MHM) kits were distributed to flood-affected communities, in collaboration with the Start Network. These kits support safe hygiene practices, safeguard the health and dignity of women and girls, and help reduce the risk of waterborne and sanitation-related diseases during the crisis.
Coordination Meeting with UNOCHA for Collaboration in emergency response	On 11 September 2025, Doaba Foundation participated in a coordination meeting with UNOCHA in District Muzaffargarh to plan and align the Rapid Needs Assessment (RNA) for flood-affected areas. Discussions focused on displacement figures, damages to housing, agriculture, and livelihoods, and identifying urgent gaps in food, WASH, shelter, and health services. UNOCHA emphasized standardized data collection and joint assessments to ensure reliability across partners. Doaba Foundation shared preliminary field findings, highlighting the vulnerabilities of female-headed households, persons with disabilities, and destitute families, and confirmed use of UNOCHA's tools and methodologies. Both parties agreed on real-time information sharing and close coordination with DDMC and local authorities to enable evidence-based response planning and resource mobilization.

3. Jhang

To date, **396 people and 1,392 animals** have been evacuated from multiple locations, including Jhang City Band, Pindi Mohallah, Daduana, Ali Pur, Thatha Jabana, Wijhlana, Kot Khera, Jogera Bhochera, Kharora Baqar, Dabkalan, Kot Umar Daraz, Bahoo Pull Toll Plaza, and Bahoo Bridge West. Several exposed villages remain at risk with limited movement reported. Relief operations by Rescue 1122, Pakistan Army, PDMA Punjab, and district authorities are ongoing, with **18 relief camps established** and rescue boats and medical teams deployed at **20 critical points**. Food, safe drinking water, shelter, health services, and WASH facilities are being provided, while humanitarian partners, including Doaba Foundation, are supporting the response with hygiene kits and psychosocial services to ensure coordinated and dignified assistance. Preventive measures have included a controlled breach near Rewaz Bridge and demolition of a railway line to divert floodwaters from populated areas, though a fatal drowning occurred in UC Sultan Baho where search operations are ongoing. Looking ahead, Doaba Foundation, in collaboration with Welthungerhilfe (WHH), will conduct a **Rapid Needs Assessment (RNA) in Tehsil Ahmad Pur Sial** to identify urgent humanitarian gaps and guide targeted interventions in WASH, food security, shelter, and psychosocial support for flood-affected families.

Emergency Measures

1. A controlled breach of the embankment near Rewaz Bridge was carried out to reduce pressure on Jhang City and Trimmu Barrage.
2. A railway line was detonated to redirect floodwaters away from densely populated areas.
3. Over **130 villages have been affected**, with **1,358 people and 1,392 animals** evacuated to safer locations.
4. **18 relief camps** have been established, while Rescue 1122 teams with boats and medical staff are deployed at **20 critical sites**.

Community Tragedy (30 August 2025)

Chenab Forum, established through Doaba Foundation's CBDRM mobilization, reported a drowning in UC Sultan Baho. A 60-year-old man lost his life in rising Chenab waters, and his body has not yet been recovered. Rescue 1122 search operations are ongoing. The affected family is being supported with dignity and care, and the incident will be documented in donor briefings.

Focused area	Details
Preventive Steps	In Chenab, extremely critical
Evacuations	1,358 people, 1,392 animals evacuated from 130 villages
Relief Response	18 camps established, Rescue 1122 active with boats and medical teams. But now the community started moving to their homes from flood relief camps.
Provision of integrated Households Kits to flood affected community	18-09-2025 – In collaboration with Welthungerhilfe (WHH), Doaba Foundation is preparing to distribute Integrated Household Kits to 100 flood-affected families in District Jhang. Each kit is designed to meet immediate multi-sectoral needs and includes a two-month food package, hygiene and MHM supplies, and kitchen utensils to support cooking and food preparation. This intervention aims to reduce health risks, promote dignity, and strengthen the coping capacity of affected households in the aftermath of the floods.

4. Multan

In District Multan, floods continue to cause devastation, with nine lives lost after a rescue boat capsized near submerged villages. Authorities have conducted controlled breaches at five embankments to protect populated areas including Sher Shah, Gagra Kachhor, and Jalalpur Pirwala, where 4,000 people had already been evacuated earlier this month. Although waters are partially receding in eastern Punjab, communities in Multan face severe crop losses, damaged homes, food shortages, and a lack of livestock fodder. Province-wide, the disaster has resulted in **63 deaths**, affected **4.199 million people**, and displaced **2.147 million**, with **412 relief camps**, **492 medical camps**, and more than **27,000 rescue boat trips** recorded. Officials warn that surges in the Chenab River, now nearing critical levels, continue to pose a serious threat, highlighting the urgent need for coordinated support in food, WASH, and livestock assistance. (*Reuters; AP News*)

Focused area	Details
Preventive Measures	Drones deployed for monitoring; controlled blasts at 5 embankments to divert water
Evacuation Appeal	Deputy Commissioner urging relocation to government camps
Installation of Portable emergency Toilets in Camps	Installation of Portable emergency Toilets in Camps with the collaboration of Social Welfare Department Multan held on 07-09-2025.
Provision of Nutrition food Hamper in flood relief camps	Doaba Foundation distributed nutritious food hampers in flood relief camps and schools on 15 September, benefiting 200 individuals, including pregnant and lactating women (PLWs), persons with disabilities, the elderly, and adolescent girls. In Tehsil Jalalpur Peer Wala (Multan), 100 hampers were delivered across 84 schools, while in Multan City, 50 hampers were distributed at the Sheershah and Velvet Chowk relief camps. This initiative reflects Doaba Foundation's commitment to ensuring access to safe, nutrition-rich food, with a strong focus on prioritizing nutrition as an essential need even in times of crisis.

5. Lodhran

Doaba Foundation, in collaboration with WaterAid Pakistan, is preparing to launch a WASH emergency intervention to complement government-led relief efforts. The intervention will focus on dewatering operations at five waterlogged public sites, distribution of 400 hygiene and menstrual hygiene management (MHM) kits, and provision of 3,000 liters of safe drinking water per day in relief camps and temporary settlements. In partnership with the District Government, 10 emergency toilets will also be installed in camps.

These efforts are designed to reduce health risks, restore essential services, and promote dignity and resilience among flood-affected populations.

Evacuation and Relief Efforts: Under the leadership of **Deputy Commissioner Dr. Lubna Nazir**, the district administration has imposed an emergency in all flood-prone riverine areas. Large-scale evacuation operations are underway, particularly in the **Bait area**, with residents and livestock being relocated to relief camps. The **District Disaster Management Committee (DDMC)** has been activated, and **Rescue 1122** is on standby to manage emergencies and ensure swift response. **Community Support:** Prominent businessman Jahangir Khan Tareen has pledged a donation of over PKR 20 million to support the rehabilitation of flood-affected families. The contribution will directly strengthen relief and recovery efforts in the district. **Humanitarian Partner Response:** Doaba Foundation, in collaboration with WaterAid Pakistan, is set to launch a WASH emergency intervention to complement government-led relief efforts. Planned activities include dewatering operations in waterlogged areas, provision of hygiene and menstrual hygiene management (MHM) kits, ensuring access to safe drinking water in relief camps, and installation of 10 emergency toilets in partnership with the District Government. These interventions aim to reduce health risks, restore essential services, and uphold the dignity and resilience of flood-affected communities.

6. Khanewal

District Khanewal has been placed on high alert due to severe flooding threats from both the Chenab and Ravi rivers. In response, the Punjab Government has launched one of its largest evacuation operations, displacing more than 750,000 people and rescuing over 500,000 livestock across affected districts, including Khanewal. The district administration is maintaining continuous surveillance, implementing evacuation plans, and establishing relief camps to protect vulnerable communities, while reinforcing emergency measures to manage the potential large-scale humanitarian impact.

7. Rajanpur

HELP Foundation has initiated immediate flood response in District Rajanpur where riverine communities are facing severe threats due to rising waters in the Indus River.

8. Rahim Yar Khan

With flood alerts along the Indus River, HELP Foundation activated its Anticipatory Action Plan with START Network support. Volunteers are assisting vulnerable families with safe evacuation, while coordination with District Administration (Section 144 enforcement) and continuous information-sharing with DDMA and partners ensures a timely, coordinated response.

9. Bahawalpur

In Bahawalpur, communities along the River Sutlej and downstream of Panjnad remain at heightened risk of flooding due to water releases and heavy monsoon inflows. HELP Foundation is actively engaging with community-based organizations in its project areas and maintaining close coordination with the DDMA through regular meetings. Trained volunteer teams have been mobilized to support the safe evacuation of vulnerable households, while awareness campaigns are being conducted on evacuation procedures, livestock protection, and water safety. Community forums and women leaders' networks are also being activated to strengthen preparedness and rapid mobilization. Volunteers are currently assisting families in riverine settlements to relocate to designated safe shelters, and HELP Foundation teams continue to work closely with DDMA Bahawalpur to coordinate relief interventions.

10. Dadu

The local office is closely working with community volunteers to identify vulnerable households and coordinate with the District Disaster Management Authority (DDMA). The team also supports preparedness by keeping dewatering pumps and motorboats ready for deployment.

11. Qamber-Shahdadkot

The LHDP focal person is on board and has established a trained volunteer team to support response efforts. An early warning system has been activated, and a dedicated community WhatsApp group has been created to ensure real-time information sharing.

LHDP is maintaining close coordination with existing Community Organizations (COs) and local activists, providing daily updates on the evolving flood situation. A rapid needs assessment is currently underway and is expected to be completed within one day. Meanwhile, LHDP teams are in continuous coordination with the District Disaster Management Authority (DDMA) to align response actions.

12. Larkana

A total of 710 families from Katcha areas have been relocated to Karani Bund in Talukas Dokri and Bakrani. So far, no significant assistance has been reported from government authorities or other actors.

13. Khairpur

LHDP has mobilised its volunteer network and remains engaged with district authorities to ensure the timely dissemination of flood alerts. The office contributes to preparedness by coordinating with local partners, assisting communities in identifying safe evacuation routes, and maintaining essential response equipment.

14. Sukkur

LHDP is formulating a strategy to protect affected communities. LHDP is actively engaged at the ground and field level, where 1,045 individuals have been evacuated by DDMA and relocated to stay with relatives in Panu Akal and Sukkur. Considering the severity of the situation, LHDP is formulating its strategy to safeguard affected communities. In the past days, continuous monsoon rains have hit various parts of Sukkur, leaving low-lying areas of the city submerged.

15. Jamshoro

A total of **1,470 families** from Districts Jamshoro and Dadu have relocated to protection bunds. **No support has yet been provided by the government or other actors.**

16. Sujawal

A total of 1,200 families from UC Belo, Daro, and Qadir Dino have been relocated to embankments and government-settled camps, where only basic medical assistance has been provided so far. The DDMA has established 25 tent cities across five talukas Sujawal, Mirpur Bathoro, Shahbandar, Jati, and Kharochan. Meanwhile, populations in Katcha villages remain in place, though many are expected to move toward embankments if the situation worsens.

17. Badin

In District Badin, heavy rainfall combined with breaches in the sub-drains of the Left Bank Outfall Drain (LBOD) has caused extensive agricultural losses. An estimated 4,800 acres of rice crops have been damaged, severely affecting the livelihoods of farming households in the area. The standing water has not only destroyed standing crops but also poses risks of soil degradation and delays in the next planting season. Local communities are reporting significant financial stress, as rice cultivation is a primary source of income and food security in these flood-affected villages. Immediate support is required to drain water from fields, provide seeds and agricultural inputs for replanting, and extend livelihood recovery assistance to farmers who have lost their only source of income.

18. District Ghotki: Around **3,000 families** have relocated on a self-help basis to OGDCL Bund, Qadirpur Bund, and Shank Bund. Communities from the Katcha area have also moved an estimated **4,800 livestock** to the protection bunds at OGDCL and Qadirpur Loop Bund. Families have begun setting up temporary shelters on their own, with **no assistance received so far from government agencies or NGOs.**

19. District Kashmore: Overall, 1,300 families from Katcha areas had moved to stay with relatives in Kashmore, Qankhkot, and Shikarpur. As conditions improve, the population is now beginning to return to their villages.

3.3 What are the IC Membership planned actions?

Doaba Foundation

Through these planned actions, Doaba Foundation (DF) seeks to ensure a coordinated, timely, and dignity-centered response across all operational districts, while addressing critical gaps in funding, resources, and communication.

District Lodhran & Khanewal

- DF will strengthen coordination by actively participating in District Disaster Management Committee (DDMC) meetings and maintaining ongoing dialogue with Rescue 1122 to formalize its support role in WASH services and relief camp management. This includes ensuring access to safe water, sanitation, and hygiene facilities in temporary shelters. Field teams will monitor high-risk areas such as Chamb Mor, Jhoke Janan, and Adam Wahan after each PMD advisory to track flood progression and guide response decisions.

District Jhang

- In partnership with Welthungerhilfe (WHH), DF will distribute **Integrated Household Kits** (containing kitchen utensils, food supplies, and hygiene items) to 350 flood-affected households to address multi-sectoral household needs. Coordination with local authorities will ensure safe relief camp operations with a focus on inclusive support for women, children, and persons with disabilities.

District Gujranwala

- Community awareness initiatives will be scaled up through expanded DWWF orientations, dissemination of IEC materials, and timely bilingual flood alerts via WhatsApp and automated voice messages. DF will also strengthen Distribution & Crowd Management Committees in vulnerable union councils to ensure orderly and dignified relief delivery. Planned coordination meetings with Divisional Social Welfare and Bait-ul-Maal authorities will align DF's interventions with government priorities.

Cross-District Actions (All Operational Areas)

- DF will publicize the District Flood Control Room helpline through mosques and loudspeakers to reach rural populations with limited digital access, with weekly checks to ensure hotline functionality. To enhance frontline readiness, staff and volunteers will receive refresher training in evacuation, first aid, and WASH practices in collaboration with Rescue 1122. Finally, DF will upgrade its information management system by implementing a structured daily SitRep template to record river levels, organizational activities, and humanitarian gaps—strengthening coordination, transparency, and donor engagement.

HELP Foundation

District Rajanpur:

- **Cooked Food Distribution:** Providing cooked meals to evacuees at safe sites, initially supported by PKR 250,000 from an individual philanthropist, with efforts underway to mobilize additional resources.
- **Immediate Needs Assessment:** Conducting rapid assessments to identify urgent needs of Internally Displaced Persons (IDPs).
- **Evacuation Support:** Facilitating the safe evacuation of flood-prone communities through boat services.
- **Provision of Safe Drinking Water:** Supplying clean water to affected families through water tankers.

District Rahimyar Khan & Bahawalpur:

- **Coordination with Authorities:** Engaging regularly with district administrations to ensure aligned and effective response efforts.
- **Early Warning Dissemination:** Continuously sharing updated flood alerts and advisories with vulnerable communities.
- **Volunteer Mobilisation:** Activating trained community volunteers to assist families with preparedness, evacuation, and immediate response in high-risk areas.

LHDP

Common Actions Across All Districts (Ghotki, Kashmore, Qamber Shahdadkot, Sukkur, Larkana, Jamshoro, Sujawal, Badin):

Focal persons onboarded and volunteer teams formed.

- Early warning systems activated, with daily information shared through COs, local activists, and community networks (including WhatsApp groups where established).
- Regular coordination with DDMA to align response and preparedness efforts.

District-Specific Actions:

- **Qamber Shahdadkot:** Early warning system strengthened through creation of a dedicated WhatsApp group for communities.

- **Badin:** Initiated dewatering operations in villages (Taluka Shaheed Fazil Rahoo) in coordination with Union Councils and local government.

Indus Consortium

The Indus Consortium has been coordinating joint emergency response efforts in partnership with Doaba Foundation, HELP Foundation, and LHDP. In addition, the Consortium is amplifying the voices and concerns of flood-affected communities through media engagement publishing human interest stories in print outlets and highlighting key issues in television talk shows.

3.4 What are the planned actions of other stakeholders?

In Doaba Foundation's operational districts, **DDMCs and District Administrations** are leading relief camp management and coordination, while **Rescue 1122** scales up rescue operations and joint trainings. **PDMA Punjab** continues daily alerts and anticipatory measures such as bund reinforcement. Among international actors, **UNOCHA** is coordinating RNAs and information sharing, **WHH** is partnering with Doaba in Jhang for household kit distributions, **WFP** is preparing food rations and stockpiles, **Start Network** members are supporting hygiene, dewatering, and water supply, and **CBM with WaterAid** is focusing on inclusive WASH, ensuring the needs of women, children, and persons with disabilities are addressed.

The **LHDP** has reported several developments in coordination and response. Several key stakeholders are scaling up their preparedness and response measures to address the evolving flood situation. The coordination revealed the following activities by other stakeholders.

PDMA: Providing stocks of boats, tents, and mosquito nets for humans and livestock to DDMA.

Rescue 1122: On high alert, with **178 boats deployed** across riverine districts for emergency evacuation and rescue operations.

PPHI: Establishing emergency medical camps in affected districts to provide health services.

Pakistan Navy: Engaged in rescue operations (as per the Chief Minister of Sindh) and operating relief camps in District Sujawal.

DDMA: Coordinating through stakeholder meetings and establishing relief camps across districts.

Acted Pakistan: Conducting assessments in District Kashmore for the provision of shelter kits, supported by **IOM**.

4.0 Policy Asks

The Punjab government has announced that compensation will be provided to flood-affected communities within the next two weeks. Households whose homes were completely destroyed will receive PKR 1 million, while those with partially damaged houses will be provided PKR 500,000. To ensure financial accessibility, the compensation should be issued in the names of women, with bank accounts opened for them. A similar precedent was set by the Sindh government after the 2022 floods, when land rights for house reconstruction were allocated to women. This approach not only promotes women's empowerment in rural Pakistan but also contributes to strengthening their social and economic status.

5.0 Request for Support

Lodhran:

Considering the evolving flood situation in District Lodhran, the following are priority areas:

- **Hygiene kits** (soap, sanitary pads, towels, detergent, toothpaste, etc.) – *1,000 kits* for vulnerable households. **Urgent**
- **Water treatment supplies** (chlorine tablets, jerrycans) – *2,000 household sets*. **Urgent**
- **Ration packs** (flour, rice, pulses, oil, sugar, salt, tea) – *1,000 family packs*. **Urgent**
- **Personal Protective Equipment (PPE)** for responders – *200 life jackets, 200 raincoats, 200 pairs of boots*. **Urgent**
- **Machinery & equipment** to reinforce embankments at Chamb Mor, Jhoke Janan, and other vulnerable points – *2 excavators, 4 dumpers*. **Medium**
- **Mobile water purification units** – *5 units* to serve flood-affected riverine communities. **Medium**
- **Transport support** – *2 trucks (10-ton capacity)* for relief item distribution and evacuation. **Medium**

Muzaffargarh:

Muzaffargarh has been among the hardest-hit districts, facing large-scale displacement and severe livelihood losses. In collaboration with district authorities, Doaba Foundation has established **64 emergency toilets** across three union councils and is providing cooked food at relief camps. However, additional support is urgently needed in the following areas:

- **Food Rations:** *1,500 household packs* (flour, rice, pulses, oil, sugar, salt). **Urgent**

- **Safe Drinking Water:** Support for 2,000 households via purification tablets, bottled water, or filtration units. **Urgent**
- **Sanitation Facilities:** 100 additional portable toilets for relief camps. **Medium**
- **Hygiene Kits:** 2,000 kits (soap, sanitary pads, detergent, water containers, mosquito nets), prioritized for households with high numbers of women as per Health Department guidance. **Urgent**
- **Shelter Materials:** 1,200 sets (tents, tarpaulins, mats, blankets). **Medium**
- **Livestock Support:** Fodder for 4,000 animals and vaccination/veterinary care for 1,500 households. **Urgent**
- **De-watering:** 8 pumps for schools, BHUs, and critical infrastructure. **Medium**
- **Logistics:** 3 trucks, 2 boats, and fuel support to sustain relief operations. **Medium**

Khanewal:

The district has been placed on high alert due to flood threats from the Chenab and Ravi rivers, affecting multiple union councils.

Immediate requirements include:

- Food Rations: 2,000 household packs (flour, rice, pulses, oil, sugar, salt). **Urgent**
- Safe Drinking Water: For 3,000 households via bottled water, purification tablets, or filtration units. **Urgent**
- Sanitation Facilities: 150 portable latrines and desludging services in temporary camps. **Medium**
- Hygiene Kits: 2,500 kits (soap, sanitary pads, towels, water containers, mosquito nets). **Urgent**
- Shelter Materials: 1,500 sets (tents, tarpaulins, mats, blankets). **Medium**
- Livestock Support: Fodder for 5,000 animals; vaccination/veterinary services for 2,000 households. **Urgent**
- De-watering: 10 pumps for schools, BHUs, and public facilities. **Medium**
- Logistics: 4 vehicles, 2 boats, and fuel for outreach in inundated areas. **Medium**
- Technical Expertise: 5 specialists in rapid assessment, WASH, and shelter management. **Medium**
- Volunteers: 100 trained individuals for evacuation, mobilization, and relief assistance. **Medium**

HELP Foundation seeks urgent support to strengthen its ongoing humanitarian response in the flood-affected districts of **Rajanpur**, **Rahimyar Khan**, and **Bahawalpur**. In addition to financial contributions, the following areas of support are critical:

Food Security & NFIs

- Dry ration packages and ready-to-eat meals for displaced families. **Urgent**
- Essential non-food items, including cooking utensils, blankets, and bedding. **Urgent**

Health & Medical Support

- Emergency medicines for diarrhea, malaria, and skin infections. **Urgent**
- Deployment of mobile health units to inaccessible areas. **Urgent**
- Support for medical staff incentives and transport to sustain health services. **Urgent**

Shelter & WASH

- Tents and temporary shelters for displaced families. **Urgent**
- Mosquito nets and repellents to reduce malaria risk. **Urgent**
- Safe drinking water through tankers, purification tablets, and hygiene kits. **Urgent**
- Technical support for repairing damaged hand pumps and water supply systems. **Medium**

Logistics & Operations

- Boats, fuel, and transport for evacuation and relief delivery. **Medium**
- Temporary storage facilities for relief items in Rajanpur and other districts. **Medium**
- Support for establishing a field-level coordination hub. **Medium**

Livelihood Recovery

- Seeds, fertilizers, and inputs for farmers who lost crops. **Medium**
- Livestock feed and basic veterinary care. **Urgent**
- Cash-for-work or short-term income opportunities for affected households. **Medium**

LHDP has identified **funding needs** to support its response activities, including evacuation and transportation, provision of shelter, cooked food, safe drinking water, livestock fodder, and WASH services. Planned actions include:

- **Developing proposals** to mobilize resources. **Medium**
- **Coordinating with donors and international organizations** to secure support. **Medium**
- **Ensuring timely and accurate information sharing** with all stakeholders to facilitate a coordinated response. **Medium**

Logistical Support

Doaba Foundation has identified needs technical & logistics: 2 excavators, 4 dumpers for embankments; 5 mobile water purification units; 2 trucks (10-ton) for relief and evacuation. Capacity building: 10 WASH/MHM refresher sessions (250 participants); 5 safeguarding and gender-sensitive response orientations (100 participants). Information & communication: 10 awareness campaigns via FM radio, mosques, and cable networks.

Furthermore, we are currently operating with 10 fibreglass motorboats and 60 dewatering pumps across Punjab and Sindh Provinces. Moreover, we have a network of riverine communities organised into village organisations and river-level forums at the district level. To expand its reach and effectiveness, IC members require an enlarged fleet of **10 boats and 50 dewatering pumps**, along with sufficient financial resources to hire trucks and vehicles suitable for rural terrain, as well as **warehousing facilities** to ensure the timely and efficient delivery of relief items to cut-off communities.
